“ For the last 11 years, I had the honor of befriending the most gentle of giants! Burt had an amazing personality and has left such a lasting impression on my heart and the hearts of everyone who knows him. My love and respect for him is sadly something I never truly got to express to him personally, however the impact he's had on his biggest fan ; Charlie Leanne- is above and beyond anything words can describe Their relationship is something bound by love and laughter and he taught her more than he'll ever know, and more than I can ever thank him for! From the jokes, fishing, conversations of walking dead, movies and music and sneaking him Mountain Dew when he wasn't allowed to have it- he'll truly be missed and loved beyond measures

“ Beautiful memories of our childhood together; playing, laughing, singing, celebrating the joy of love and friendship we found in each other. Although we are not blood family; Burt is my big brother, and Kim my sister, always. The tender love and kindness Burt has given this world could never be measured; a divine heart and soul. I love you all.

I found this information about donating to the Delaware Library, in honor of Burt:

“ We are so saddened by the loss of such a great man. Your family is in our thoughts and prayers each and every day. We are unable to attend the funeral but will be thinking of you all and prayers will be sent. Burt had such a unique influence on Josh, and they shared a special friendship. Josh would always look for a new video game that him and Burt could play together. Josh always talked about how they would both sit in the recliners and each have a dog on their lap while playing the Xbox. Josh always looked forward to the fishing trips they would take together, and couldn't wait to share stories. Burt was the only one allowed to fix his pole. With the affect Burt had on our family, I can only imagine how he affected so many others he came to know. The Fowler family has become a part of our family and we love you all so much. Burt will be missed deeply.
